

For Immediate Release

NEW COMPANY "GASIAD" COMBINES SIAD PET BLOW-MOLDING
COMPRESSOR EXPERIENCE WITH GAS AND AIR SYSTEM'S COMPRESSOR
PACKAGE AND SERVICE CAPABILITIES

Hellertown, PA, USA- GASIAD, a new company formed through a partnership of GAS AND AIR SYSTEMS, INC., Hellertown, PA, USA and SIAD MI, SA, Bergamo, Italy, will now provide the North American market with a uniquely experienced and qualified supplier of PET bottle blow-molding compressors. GASIAD will now offer high pressure air compressors covering the comprehensive range of 53 Ncfm (90 Nm³/h) to 3,266 Ncfm (5,550 Nm³/h).

GAS AND AIR SYSTEMS (GAS) has grown since its inception in 1999 to become a major compressor package supplier for North America, providing process and industrial compressors for nearly every application. SIAD, founded in 1927, is a leading force worldwide in the manufacture of oil free compressors specifically for the PET bottle blow-molding industry. With the combined engineering and manufacturing resources of these two companies, North America now has a significant new source for PET Blow-Molding Compressor packages and systems backed by significant inventory of spare parts and experienced service technicians.
